

RESERVATION TO REMAIN UNMOVED

City Council Decides That
Restricted District Will
Not Be Changed.

MAYOR SAYS NO GAMBLING GOES

El Paso's reservation is to remain within its present bounds. This action was taken by the city council at a meeting Saturday morning, when an ordinance defining the boundaries was passed unanimously.

Mayor C. E. Kelly, discussing the establishment of the lines, said after the meeting:

"It is our intention to protect the citizens of El Paso. We don't intend that these people shall be scattered. We will see that they are kept in the reservation."

"There will never be any open gambling in the city of El Paso—we are keeping our eyes open for that."

Councilmen Talk.
Alderman Samuel Blumenthal said: "When Joe Sweeney was mayor a district running from Seventh street to the river was established, but people would not invest their money there, and no accommodations could be had for these people there, because that is in the Chemical district and no one wanted to invest money there. This old district has been established for 25 years and we must have a place to keep them so they will not scatter all over the city."

Alderman McChes said: "We must have a district for these people or they will fill the rooming houses and the residence district of the city."

Alderman Blumenthal asked city attorney W. M. Caldwell if there was any penalty attached to the ordinance for violations and he said: "No, it is intended to have the old penalties apply."

Court Reverses Cases.
The appellate court at San Antonio has reversed and dismissed the case of M. McDonald et al., appellants, vs. Thelma Denton et al., appellees, on appeal from a judgment of the district court perpetuating a writ enjoining the issuance, service and execution of writs of injunction against appellees.

San Antonio an effort was being made to eject these women in San Antonio.

Fight May Continue.
Joe Nealon, when asked what action would be taken by the property owners who have been seeking the removal of the reservation, said: "I have not yet seen my clients, but still believe that the ordinance is invalid and shall advise that we proceed."

The District.
The council Saturday defined the district as follows: "Beginning at a point where the west line of the alley between Stanton and Utah streets intersects with the south line of the acequia as it existed January 23, 1892, thence along the south bank of the acequia as it then existed with the meanders thereof to the east line of the alley between Utah street and Oregon street; thence down the east line of said alley to the north line of Third street; thence east along the north line of Third street to the west line of the alley between Utah street and Stanton street; thence northerly up the west line of said alley to the place of beginning."

"It shall be unlawful to establish a heavy house in any other part of the city than this district and heavy houses and the inmates thereof shall not be molested so long as they keep within this district," says the ordinance.

Street Grade Established.
Following the passage of the ordinance regulating the Red Light district, the city council took up the matter of establishing a grade on North Campbell street, between Cliff street and Mesa and one of 8-1-2 percent for the 20 feet was adopted with H. Allen, who owns property just above the corner of Cliff street, protesting, stating that it would injure his property.

CUDAHY HAS RELAPSE.
Chicago, Ill., Nov. 26.—Michael Cudahy, founder of the Cudahy packing interests, suffered a relapse early today, following an operation for appendicitis, and his condition is very serious.

ENGINEERS APPROVE THE ENGLE PROJECT

Washington, D. C., Nov. 26.—The army board of engineers completed its report on all reclamation projects and it goes to secretary Ballinger and president Taft early next week.

The recommendations will be announced from the white house, but it is known that the board recommends a vigorous prosecution of the work on the Rio Grande project.

Two additional letter carriers at El Paso were authorized today. This will make 25 carriers in El Paso. Postmaster Smith requisitioned for more carriers because of the erection of numerous new office buildings in El Paso.

GIRL TRIES TO END LIFE UNDER ENGINE

J. C. Thornton, a fireman; Leonard Stump and J. W. Doyle, switchmen; yard clerk Escontrias and call boy Jacoby, all employed by the T. & P., are authority for the statement that a Mexican girl living in the long string of adobe between Kansas and Stanton streets on Sixth street, laid down on the Santa Fe link Friday night and begged the trainmen, who were on a T. & P. locomotive, to run over her.

Jacoby stated Saturday morning that he and the other trainmen had to get down from the locomotive and pull the girl from the track, as she refused to move even when the locomotive had almost reached her. The girl is said to be about 17 years of age. She disappeared in the adobe after being pulled from the track.

BLUE AND GRAY MEET AGAIN IN BATTLE

After Two Years, Navy and
Army Fight on Gridiron
For Football Honors.

TEAMS ARE ABOUT EVENLY MATCHED

Philadelphia, Pa., Nov. 26.—The Navy defeated the Army 3 to 0 in the annual football game on Franklin field today. Captain Dalton was the hero of the game, which was well played, before a great throng, including army and navy officials. Dalton kicked a field goal in the final period and this was the only score made. Previously he had made a run of 50 yards.

Philadelphia, Pa., Nov. 26.—The black, gold and gray of the army and the blue and gold of the navy flutter all over the central part of Philadelphia today in honor of the football teams from West Point and Annapolis, which met on Franklin field this afternoon after a lapse of two years.

There was no game last year, due to the death of a naval student as a result of a football accident, the navy cancelling the rest of her games.

This year apparently the teams are as nearly matched as it is possible for two football teams to be. The navy has not been scored upon, while the army, with a harder schedule, has been scored upon twice, once by a Yale field goal and a touchdown by Harvard.

Washington society always journeys to Franklin field in force for these games, and today was no exception.

President Taft was unable to be present, but Mrs. Taft and Miss Helen Taft, vice president Sherman and many senators and representatives, as well as a host of army and naval officers, made up the Washington contingent.

The weather was perfect for the game.

ASSAULT ON WHITE GIRL BY JOHNSON

Negro Prize Fighter Is Ar-
rested, But Judge Re-
leases Him; Girl Ill.

New York, Nov. 26.—Jack Johnson, the heavyweight champion, who was arrested yesterday charged with assault on Annette Cooper, a show girl in the same company, was released today.

Miss Cooper did not appear to prosecute the charge, but she sent a letter enclosing a physician's certificate, that she has been ill in bed 10 days and requested that Johnson be kept in custody until she was able to appear. The magistrate, however, refused to put the case over.

WAGON LOAD OF GUNCOTTON FOUND

Horse Unhitched Is Draw-
ing It Around Streets of
Chicago.

Chicago, Ill., Nov. 26.—Enough guncotton to blow up whole blocks of the city was discovered by the police this morning in a wagon which was being dragged aimlessly over the west side of the city by a blind horse which had wandered away from the driver.

As soon as the police recovered, they searched for the driver, found him and arrested him in a hurry. Later a truck load of gun powder was found at the union station without a guard and with the horses unhitched. Some more hurried arrests followed.

DECIDE TO BUY POOR FARM AND SINK WELL.

Dalhousie, Texas, Nov. 26.—The Dallam county commissioners passed an order today to buy land for a poor farm and improve it. This means that a deep well for artesian water, oil or gas, will be sunk, and an expenditure of \$20,000 will be made.

LAWSON BEGS OVER A SCORE KILLED IN A FIRE

Country Appears as Peace-
ful as a Sleeping Baby.
Still Moving Troops.

UNEASINESS IN A MORMON COLONY

El Paso, Texas, Nov. 26.—Consul Luther T. Ellsworth today wired the state department at Washington advising that the "Madero revolution" is practically terminated but requested that troops be maintained along the border for a while longer.

All apparently is quiet south of here.

A HOT FIGHT AT MANAQUIPA, CHIH.

Band of Insurrectos Report-
ed Marching on Colonia
Juarez—Mormons
Armed.

Nueva Casas Grandes, Mexico, Nov. 26.—At Maniquipa, 125 miles south from here, two insurrectos were killed and a number of police and insurrectos were wounded. This fight took place Wednesday.

All is quiet now at Maniquipa.

Two hundred insurrectos, the same who started to clean up Maniquipa Wednesday, are now reported to be within 50 miles from here, headed for Colonia Juarez. A phone message from Colonia Juarez this morning said that everyone is heavily armed and the Mormons are prepared to protect their town.

MARATHON JAILS SMUGGLER BAND

Believed Mysterious Fright
Over "Armed Mexicans"
Is Now Solved.

Marathon, Tex., Nov. 26.—Eleven Mexicans were arrested for bootlegging last night, and taken to Alpine. They are accused of having smuggled liquor from Mexico. These are now believed to be the Mexicans who have been seen in this region lately, who have been causing so much alarm to the people of Marathon, and who were believed to be either revolutionists or Mexicans bent on wreaking vengeance for the Rock Springs burning of Antonio Rodriguez.

Everything is quiet in this region along the border so far as known.

RUSHING TROOPS ALL OVER MEXICO

Troop Trains Are as Fre-
quent as Cattle Trains
in Mexico.

While everything is quiet in the northern part of the Mexican republic, the federal government is taking no chances on another outbreak among the revolutionists or Mexicans bent on wreaking vengeance for the Rock Springs burning of Antonio Rodriguez.

Everything is quiet in this region along the border so far as known.

CENTER OF COUNTY IS CAUSE OF SUIT

Crosby County Seat Fight
Hinges on Change of the
Geographic Center.

Fort Worth, Texas, Nov. 26.—An injunction granted by the district court of Crosby county, forbidding the removal of the county seat from Emma to Crosbyton, following an election on September 13, was dissolved today by the court of civil appeals of the second district.

The statute provides that a two-thirds vote is required to remove a county seat to any point not within five miles of the geographical center of a county. Formerly Emma was within this charmed circle, but just before the election the land commissioner fixed a new point as the center and Crosbyton is within five miles of this point.

The election failed to give Crosbyton a two-thirds vote, but the town claims a majority, and it now only requires fixing the new center. Emma held that the commissioner had not the power to change the center, but the report today declares there is no law prohibiting the naming of the center a second time.

TAFT UNCERTAIN ON THE TARIFF

Has Not Made Up His Mind
What He Will Say About
It in Message.

Washington, D. C., Nov. 26.—President Taft was reported today as not having fully made up his mind in regard to the tariff features of his forthcoming message. He had a long conference with chairman H. C. Emery of the tariff board, and talked also with a delegation from the National Tariff Commission association.

The general impression in Washington is that the president will be unable to recommend a revision of any particular schedule in his regular message. He probably will indicate that the tariff board is not yet ready to submit a detailed report on any one of the schedules, and that the board is able to submit data on which an absolutely scientific revision can be made, the president will recommend that any action on the tariff be deferred.

NEBRASKA EDUCATOR ILL.

Lincoln, Neb., Nov. 26.—E. Benjamin Andrews, former chancellor of the university of Nebraska, is a patient in a local sanitarium. Friends are anxious over what is regarded as a critical ailment.

NO RIPLE IN MEXICO; ALL IS QUIET

Country Appears as Peace-
ful as a Sleeping Baby.
Still Moving Troops.

UNEASINESS IN A MORMON COLONY

An Emperor "At Play"

The above photograph, just received in America, is the latest snapshot of the czar of Russia in the center on a "lonesome" walk in the closely guarded grounds of his palace. This is one of the rare snapshots of the Russian ruler in mufti and not surrounded by a picked troop of soldiers. His attendants are his personal physician, Dr. Botkin, and the chief dective inspector, who are the constant shadows of the emperor, both at home and abroad. He is never out of their sight during his waking hours.

CAN CARRY BLANKET EJECTED PASSENGER GETS DAMAGES ROLLS INTO PULLMAN

Mental anguish came high in county court late Friday afternoon, the jury in the case of W. A. Custer against the Pullman company, announcing judgment for \$900 for the plaintiff. Judgment was asked for \$999.

The plaintiff, in his petition, alleged that he and two companions were humiliated on April 15, 1909, by being forced to ride in a chair car between El Paso and Benson over the Southern Pacific as a result of the refusal of a Pullman car conductor to permit them to ride in the Pullman because each had a small bundle of blankets. The petition also recites that each of the men had Pullman car tickets.

The introduction of testimony was started Saturday in county court in the suit of Young Marley against J. T. Finley. Judgment is asked for \$500 on the basis of an alleged breach of contract.

CUBAN SAYS THE TROUBLE IS OVER

Does Not Believe Mexico
Pays Much Attention to
Francisco Madero.

That Madero's followers are few in number and that the insurrection in Mexico is considered of little importance by the government, is the declaration of Dr. Jose Saenz, who has just returned from a tour through Mexico, where he has been acting as a special delegate of the Homeopathic academy of Cuba in studying the flora and fauna of Mexico.

Giving a history of the insurrection, Dr. Saenz says: "Madero is a man 42 years of age and a native of Parras, Coahuila, where, with other members of the well known family, he was engaged in the manufacture of wines."

"One year ago Madero wrote a book entitled, 'Mexico in 1910.' This he published and sent copies to all of those opposed to the Diaz regime whom he knew. Then he made a tour of the country in a private car, declaring himself the Democratic candidate for president. However, he had to secure permission from the jefes of the various towns he visited before he could speak and his audiences were small. The majority of the influential men in Mexico favor Diaz, for they know what he has done for Mexico in the past 20 years."

"Madero has money and he thought this would give him political position, but it did not."

"Reves might have a good chance to be president of Mexico in the event that Diaz should retire from office, and after him the men most preferred would be Jose Yves Limantour, minister of finance, or Enrique C. Cret, minister of foreign relations."

"I have received letters today from Nalca, Moqui and Fronteras in the state of Chihuahua, Gomez Palacio, Durango, and Morelia, Michoacan, all of which state that business is being conducted as usual and everything is quiet."

SHAFTROTH AWAY AHEAD.

Denver, Colo., Nov. 26.—According to complete and official returns, the plurality of governor John A. Shaftroth, Democrat, at the recent election, was 17,782. Of this Denver county gave him 13,657.

TWO SCORE ARE INJURED IN BLAZE

Paper Box Factory Burns
in Jersey City and Em-
ployes Are Trapped.

PERISH IN THE ARMS OF FLAME

The Police Are Certain That
28 Are Dead and 39 In-
jured in the Fire.

Newark, N. J., Nov. 26.—It is known that 28 are dead, and 39 injured in a fire which started this morning in the factory of the Newark Paper Box company, 216 High street. Nearly all the victims are young women.

When the fire broke out, it trapped 50 girls, employed on one of the upper floors of the building. A panic ensued and many girls who were hemmed in by smoke and flames, leaped from windows.

The building was a four story structure, the fourth floor being occupied by Louis Wolf, manufacturer of underclothes. It is believed the blaze started on the second floor in a pile of rubbish.

Escape Quickly Cut Off.
The flames spread rapidly and before scores in the building realized their danger, they were cut off from escape, except by windows and one or two fire escapes. Many were guided to safety down fire escapes by the firemen. Life nets also saved the lives of many others, who jumped in a frenzy of fear.

Less than 20 minutes after the arrival of firemen, the interior of the building was in flames and the floors fell in shortly afterwards. Spectators assert that a number of girls went down with the floors.

A statement issued by the police at noon said there were 14 known to be dead.

Several deaths at hospitals brought the death list to 25 at 5 o'clock.

There were 31 injured at the city hospital and eight at St. Michael's hospital.

TEXAS MEXICANS FORM BIG COLONY

A Hundred Families Lease
Trevino Lands Oppo-
site Del Rio.

Del Rio, Texas, Nov. 26.—The colonies on the Trevino property just across the Rio Grande from Del Rio are to be greatly strengthened by the immigration of Texas Mexican farmers from the neighborhood of Lockhart, Texas. One hundred families, principally Mexican cotton farmers, citizens and natives of Texas, have contracted to lease 10,000 acres of land from Senor Trevino's managers and a party of 40 families have reached the border to begin their farming operations. The balance of the immigrants is to follow immediately.

The Mexicans lease the land for three years, paying 30 percent up to 28. 40 for rent, the management to furnish all implements and stock. The farmers have the privilege of purchasing the land during the life of the contract and paying for it in installments of 10 percent a year. Cotton will be the principal crop and will be flooded and irrigated with at least one foot of water in January or February of each year. This amount of irrigation with the normal rainfall is expected to assure good yields.

This is the second colony to be placed on this property in recent months, a large number of Mormon families crossing a few weeks ago and settling upon land purchased for the colony. When this estate of 87,000 acres of irrigated land is finally settled it will be one of the largest productive communities in the southwest.

TWO DALLAS FIRES THREATEN SLEEPERS

Dallas, Texas, Nov. 26.—John Copley and U. S. York druggists, were seriously burned and four houses were completely destroyed by a fire which started at 2:30 o'clock this morning on Ross avenue, in the fashionable residence section.

York suffered a broken foot in jumping from a second story window. Misses Marie Smith and Ima Grace, roomers, narrowly escaped burning to death. The total property loss will reach \$20,000.

Another fire at midnight destroyed a boarding house on Main street, causing a loss of \$500. Several narrowly escaped in this fire.

A shortage of water seriously handicapped firemen and for a time it appeared the blaze would spread over an entire block.

BRAZILIAN MUTINEERS SURRENDER VESSELS

Rio Janeiro, Brazil, Nov. 26.—The mutinous vessels of the Brazilian navy, which put to sea yesterday to await positive assurance of the government's good faith in granting their demands for naval reforms and full amnesty, spent the night outside the bay, returning to the harbor this morning.

The warships were still flying red flags, but the crews made it known that the ships would be turned over to the authorities at noon in accordance with the terms of amnesty.
